THE IMMUNE SYSTEM, GENERAL HEALTH, AND CHIROPRACTIC CARE

This 1.5 hour lecture by Dr. Kirk Eriksen will help the viewer develop a better understanding of the following topics related to the immune system, general health, and chiropractic care:

- Issues related to the flu shot and the 1918 flu pandemic and how this impacted the chiropractic profession
- Chiropractic care and its effect on the immune system
- A detailed review of the immune system and how it functions
- How the nervous system influences the immune system
- Atopic disorders and various factors that influence their development including the ‘Hygiene Hypothesis’
- Stress and its impact on one’s health
- Outcome assessments used to objectively evaluate patients’ neurological dysfunction
- Medical iatrogenesis including Cox-2 inhibitors
- Breast feeding and its positive impact on mother and child
- Attention Deficit Disorder and Attention Deficit Hyperactivity Disorder
- Depression and chiropractic care
